Project Update – 24.06.2025

Project Overview

Delivering Primary Healthcare to Rural Communities, to bridge the healthcare accessibility gap in rural and remote areas by delivering comprehensive primary healthcare services through mobile medical units.

Rationale:

Many rural communities face shortage of healthcare facilities and staff, long travel distances to nearest health centers, financial and social barriers to care. Mobile Medical Units serve as a cost-effective, flexible solution to bring services directly to these populations.

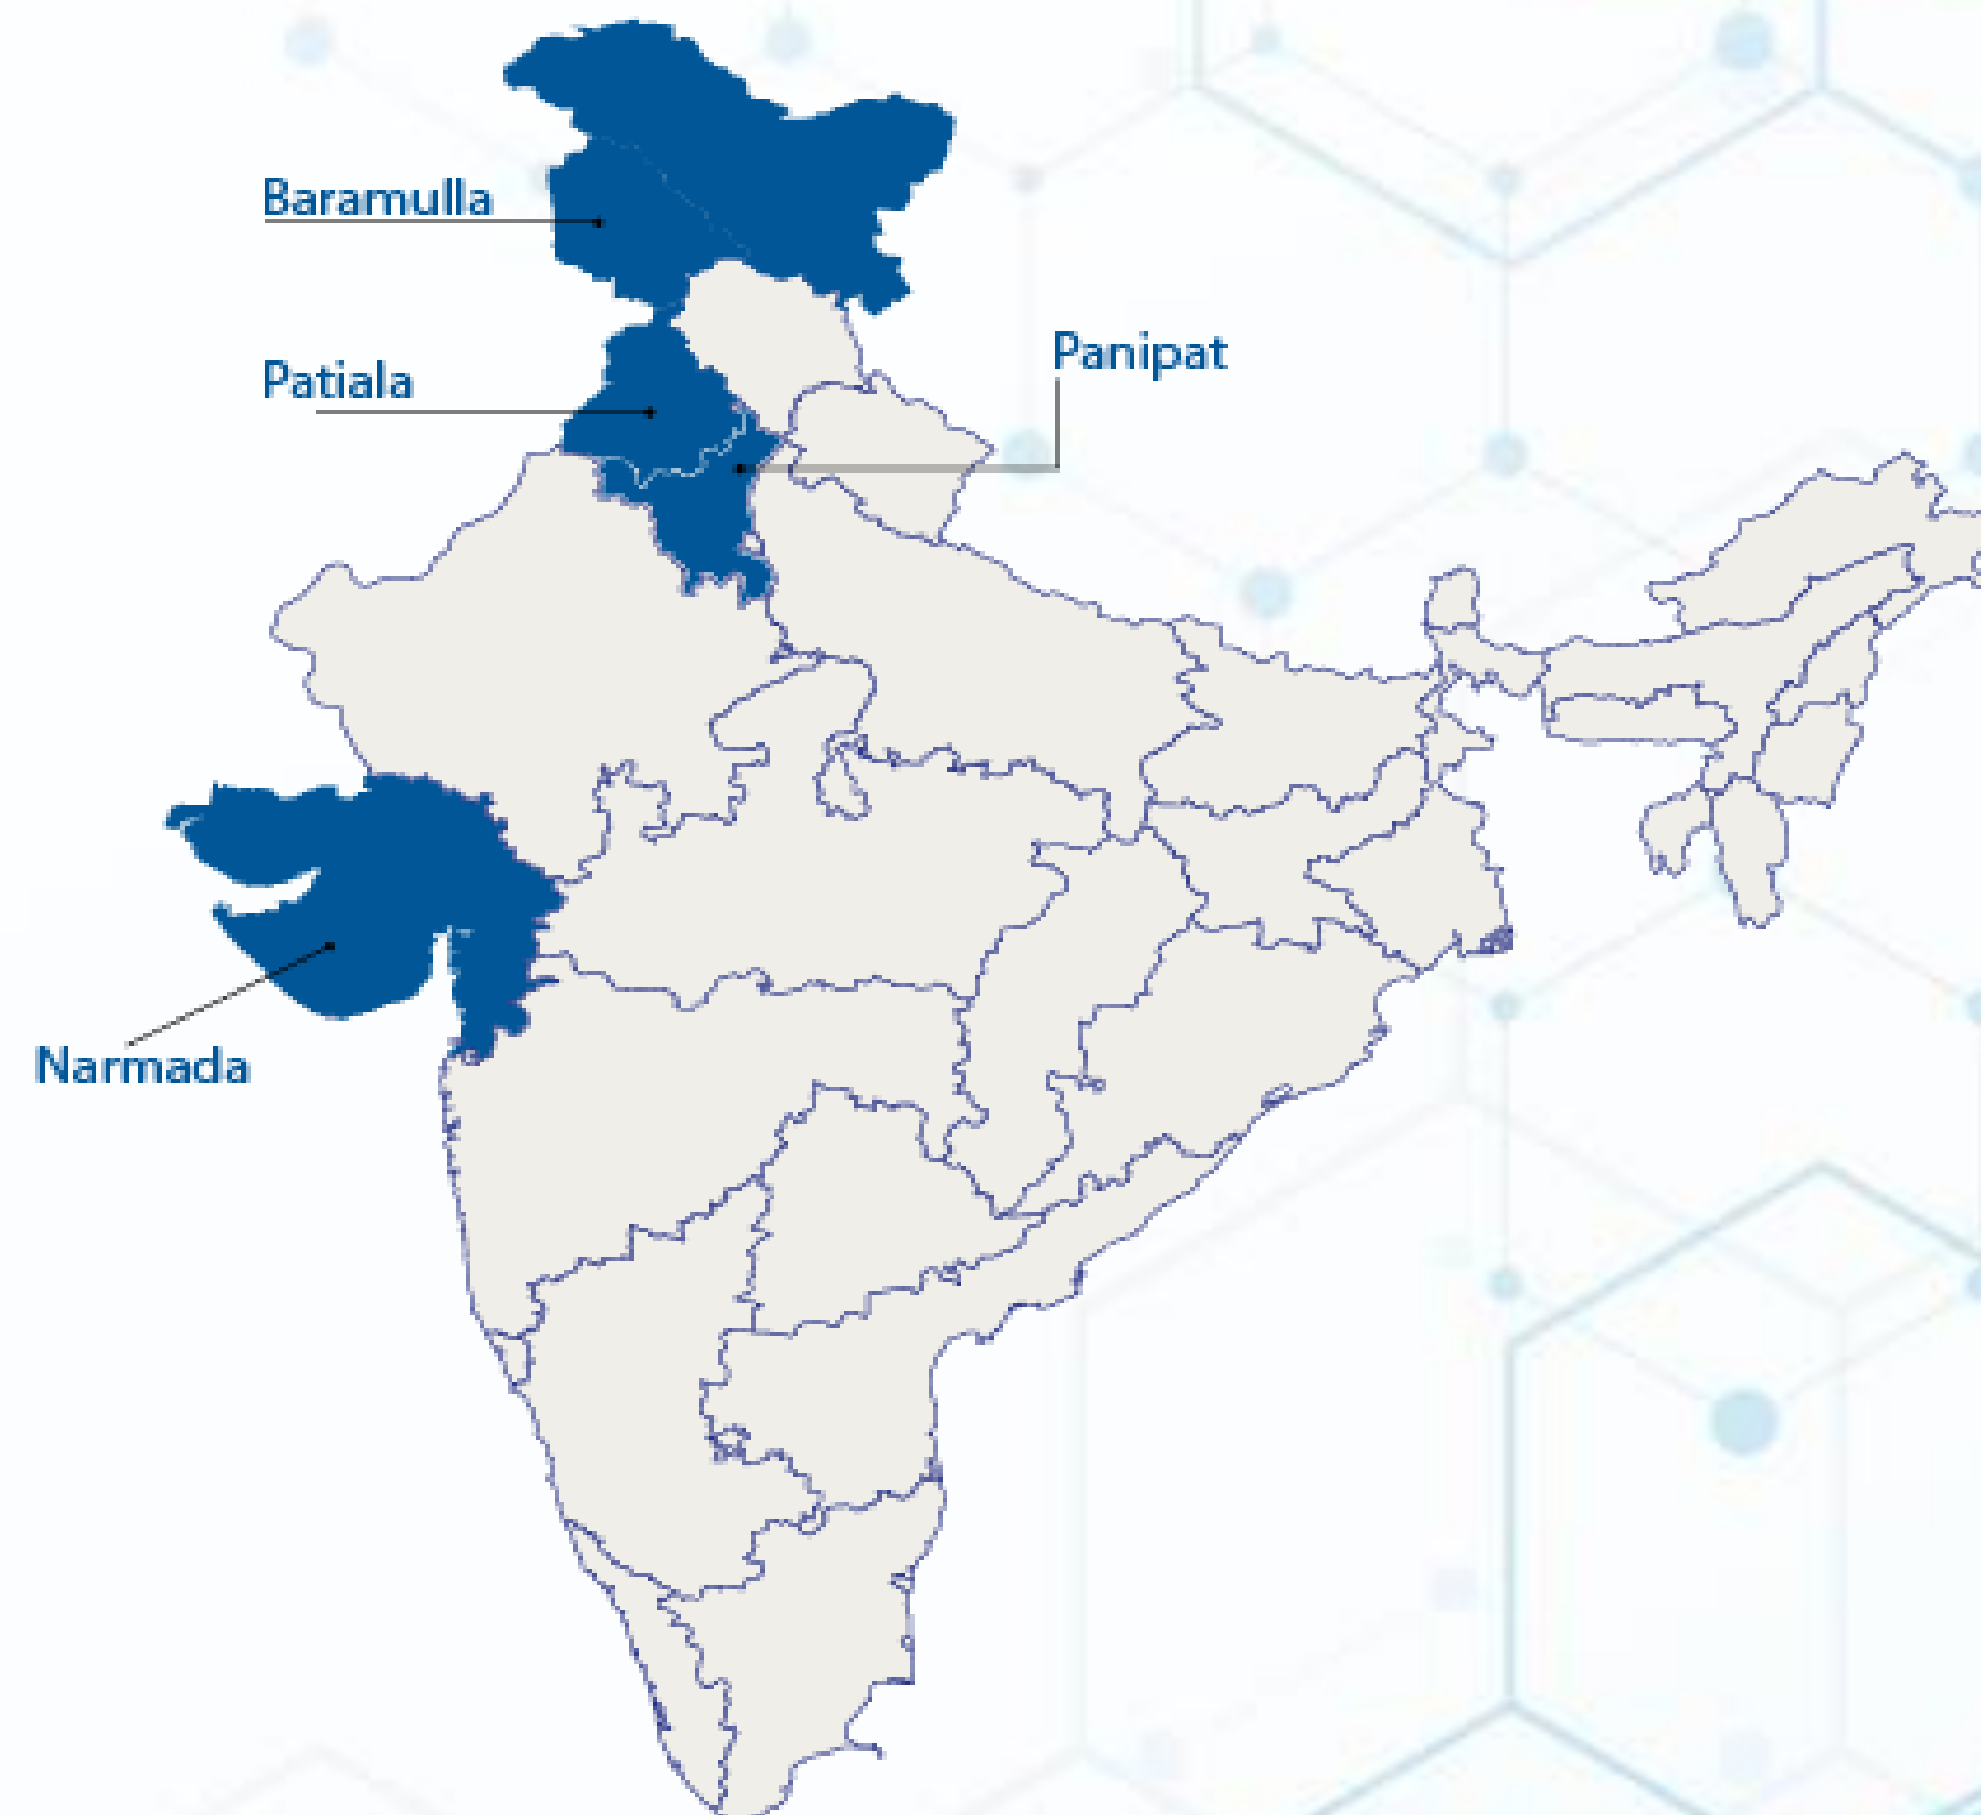

Aim:

- Early diagnosis and treatment.
- Better management of chronic conditions like diabetes, hypertension, and arthritis.
- Identification of anaemia and communicable diseases due to poor socioeconomic conditions.
- Regular follow-up of the patients and referrals to emergency cases.
- Awareness programs to spread knowledge about health and hygiene to prevent serious diseases.

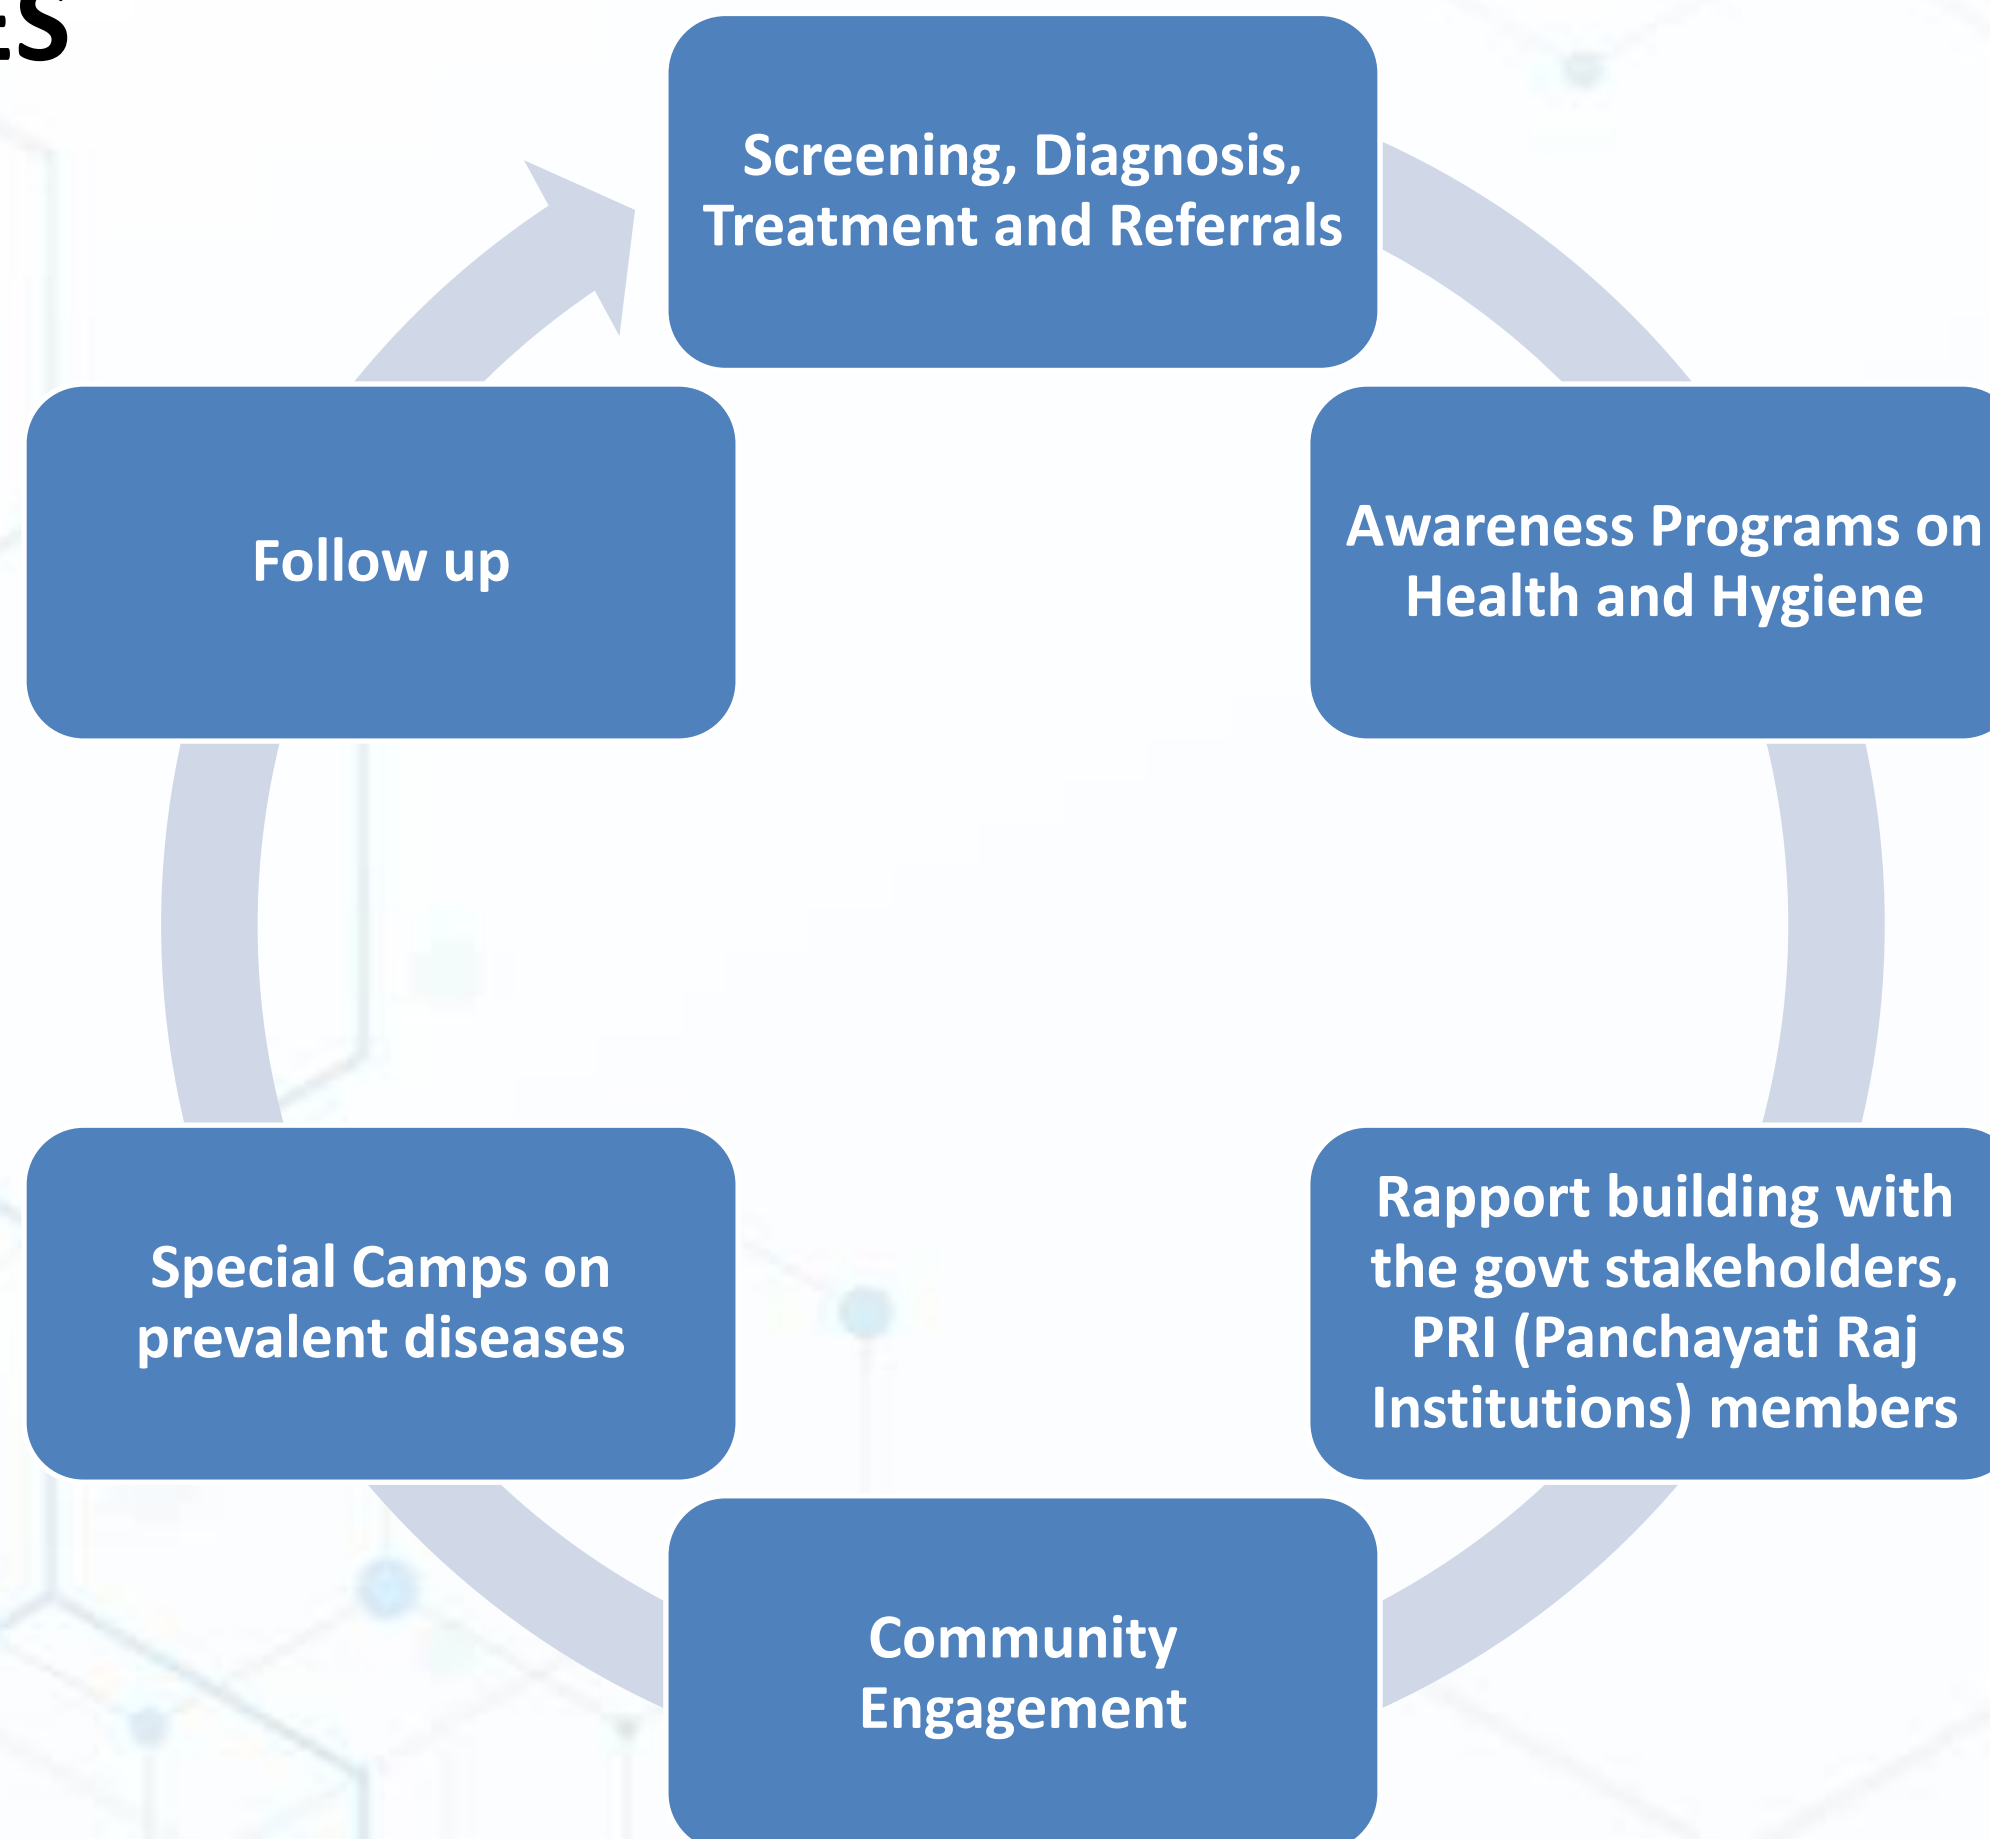

Mobile medical units will provide the following Primary Healthcare Services

- General outpatient care including fever, infections, and minor injuries; maternal and child healthcare; adolescent and elderly care.
- Basic diagnostics such as blood pressure, glucose, hemoglobin, and malaria screening.
- Health education and counseling covering nutrition, hygiene, and family planning.
- Regular follow-ups to monitor patients for the efficiency and effectiveness of the treatment program and Referral services for complicated cases.

MAJOR ACTIVITIES

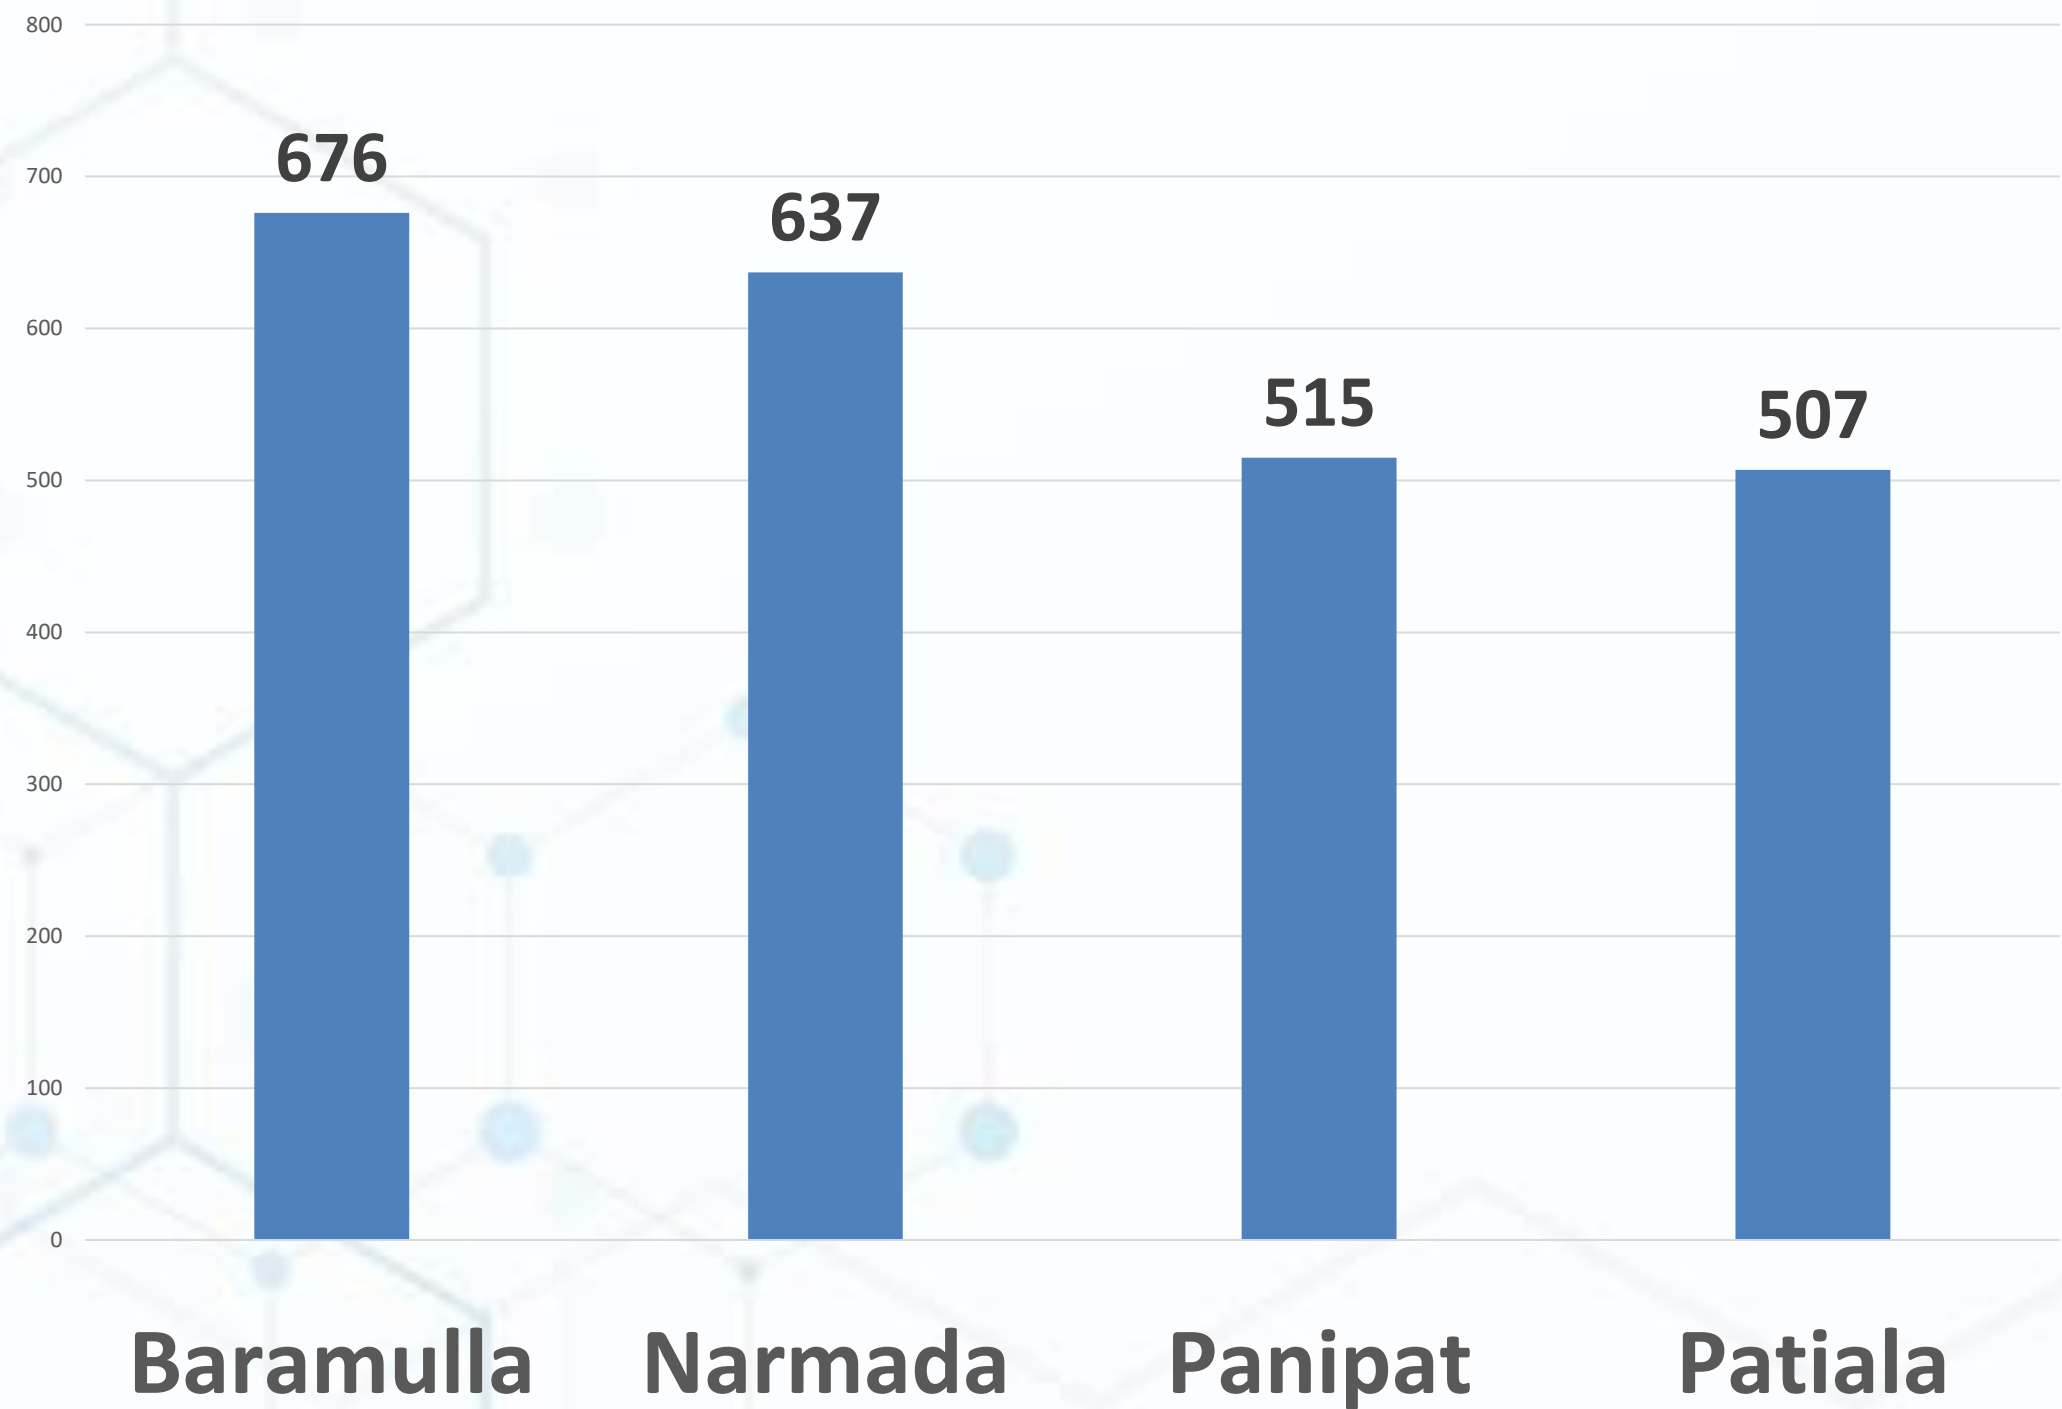

Project Update:

- Total no. of Beneficiaries : 8739
- Total no. of Beneficiaries in June 2025: **2828**
(Daily camps- 2335, Awareness Camps- 493)
- Male-47%, Female-53%
- Children:5%, Adolescents: 8%, Adults: 87%
- Non-Communicable Diseases: 27%
- Communicable Diseases: 25%
- Other Diseases: 48%
- No. of Awareness camps: 16
Topics covered: Women and Child Health
- Special Camp is scheduled to be conducted in Baramulla on 1st July 2025 and in Narmada on 28th June 2025. Due to heavy rain in Narmada, it will be conducted once the situation becomes better.

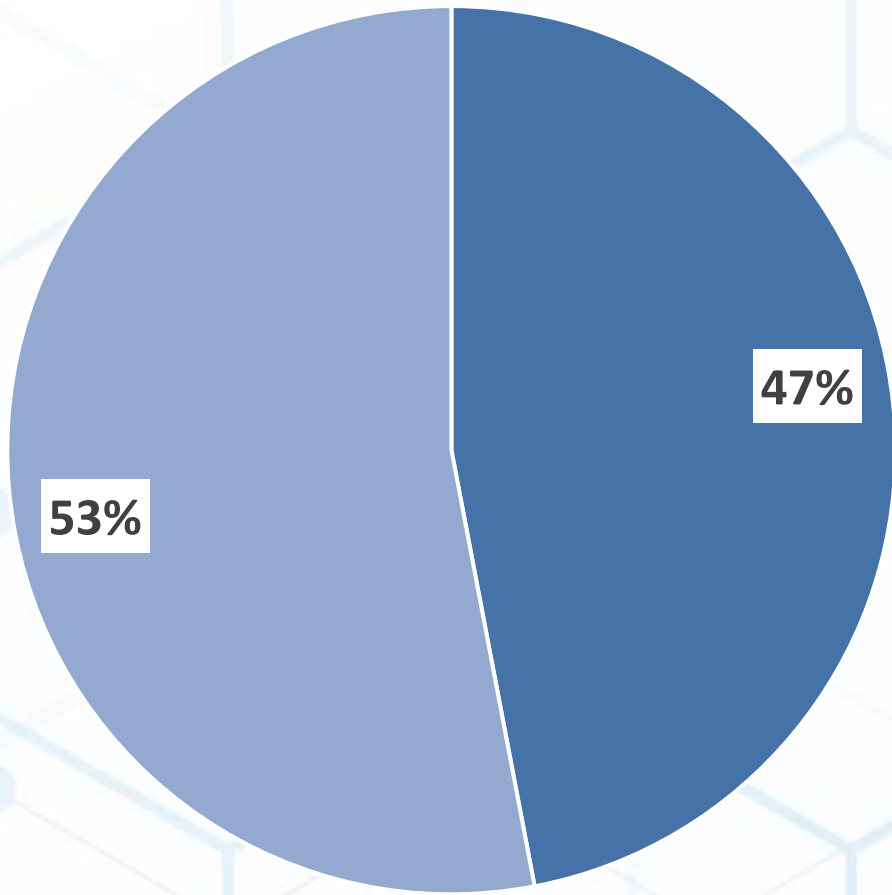

District wise analysis of Beneficiaries

Patiala: 507; Panipat: 515; Narmada: 637; Baramulla: 676. **Total Beneficiaries: 2335**

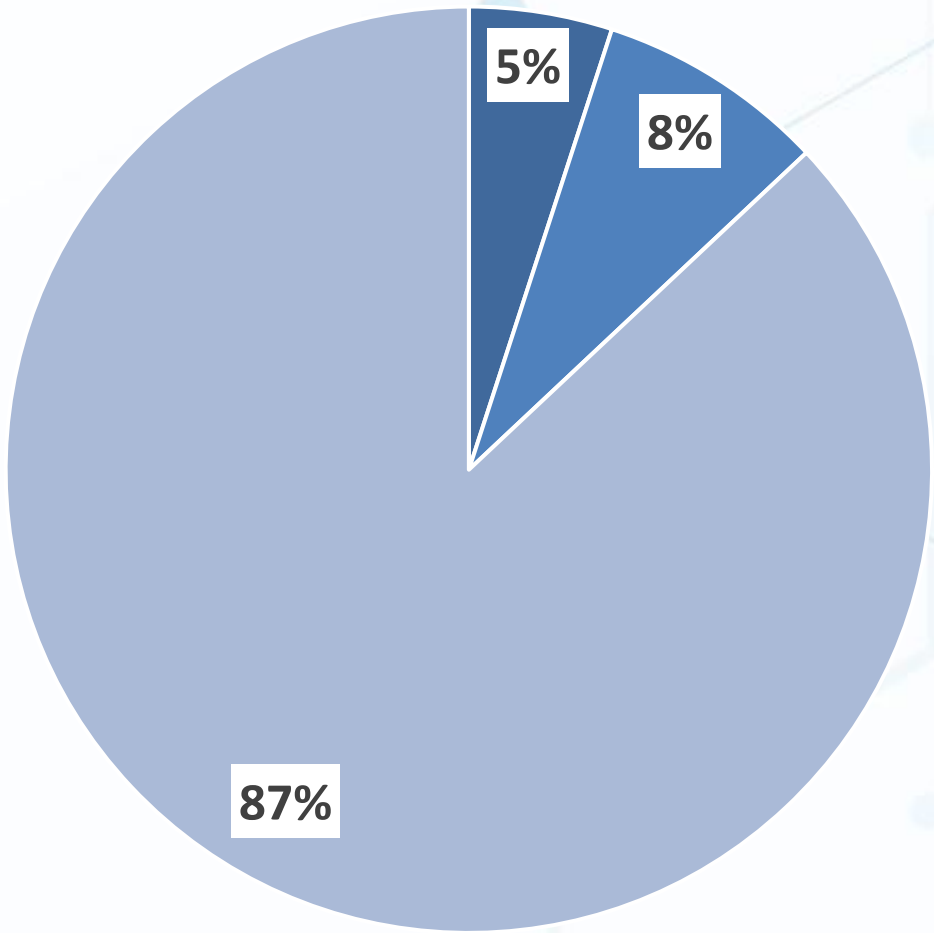

Gender wise analysis of Beneficiaries

■ Male ■ Female

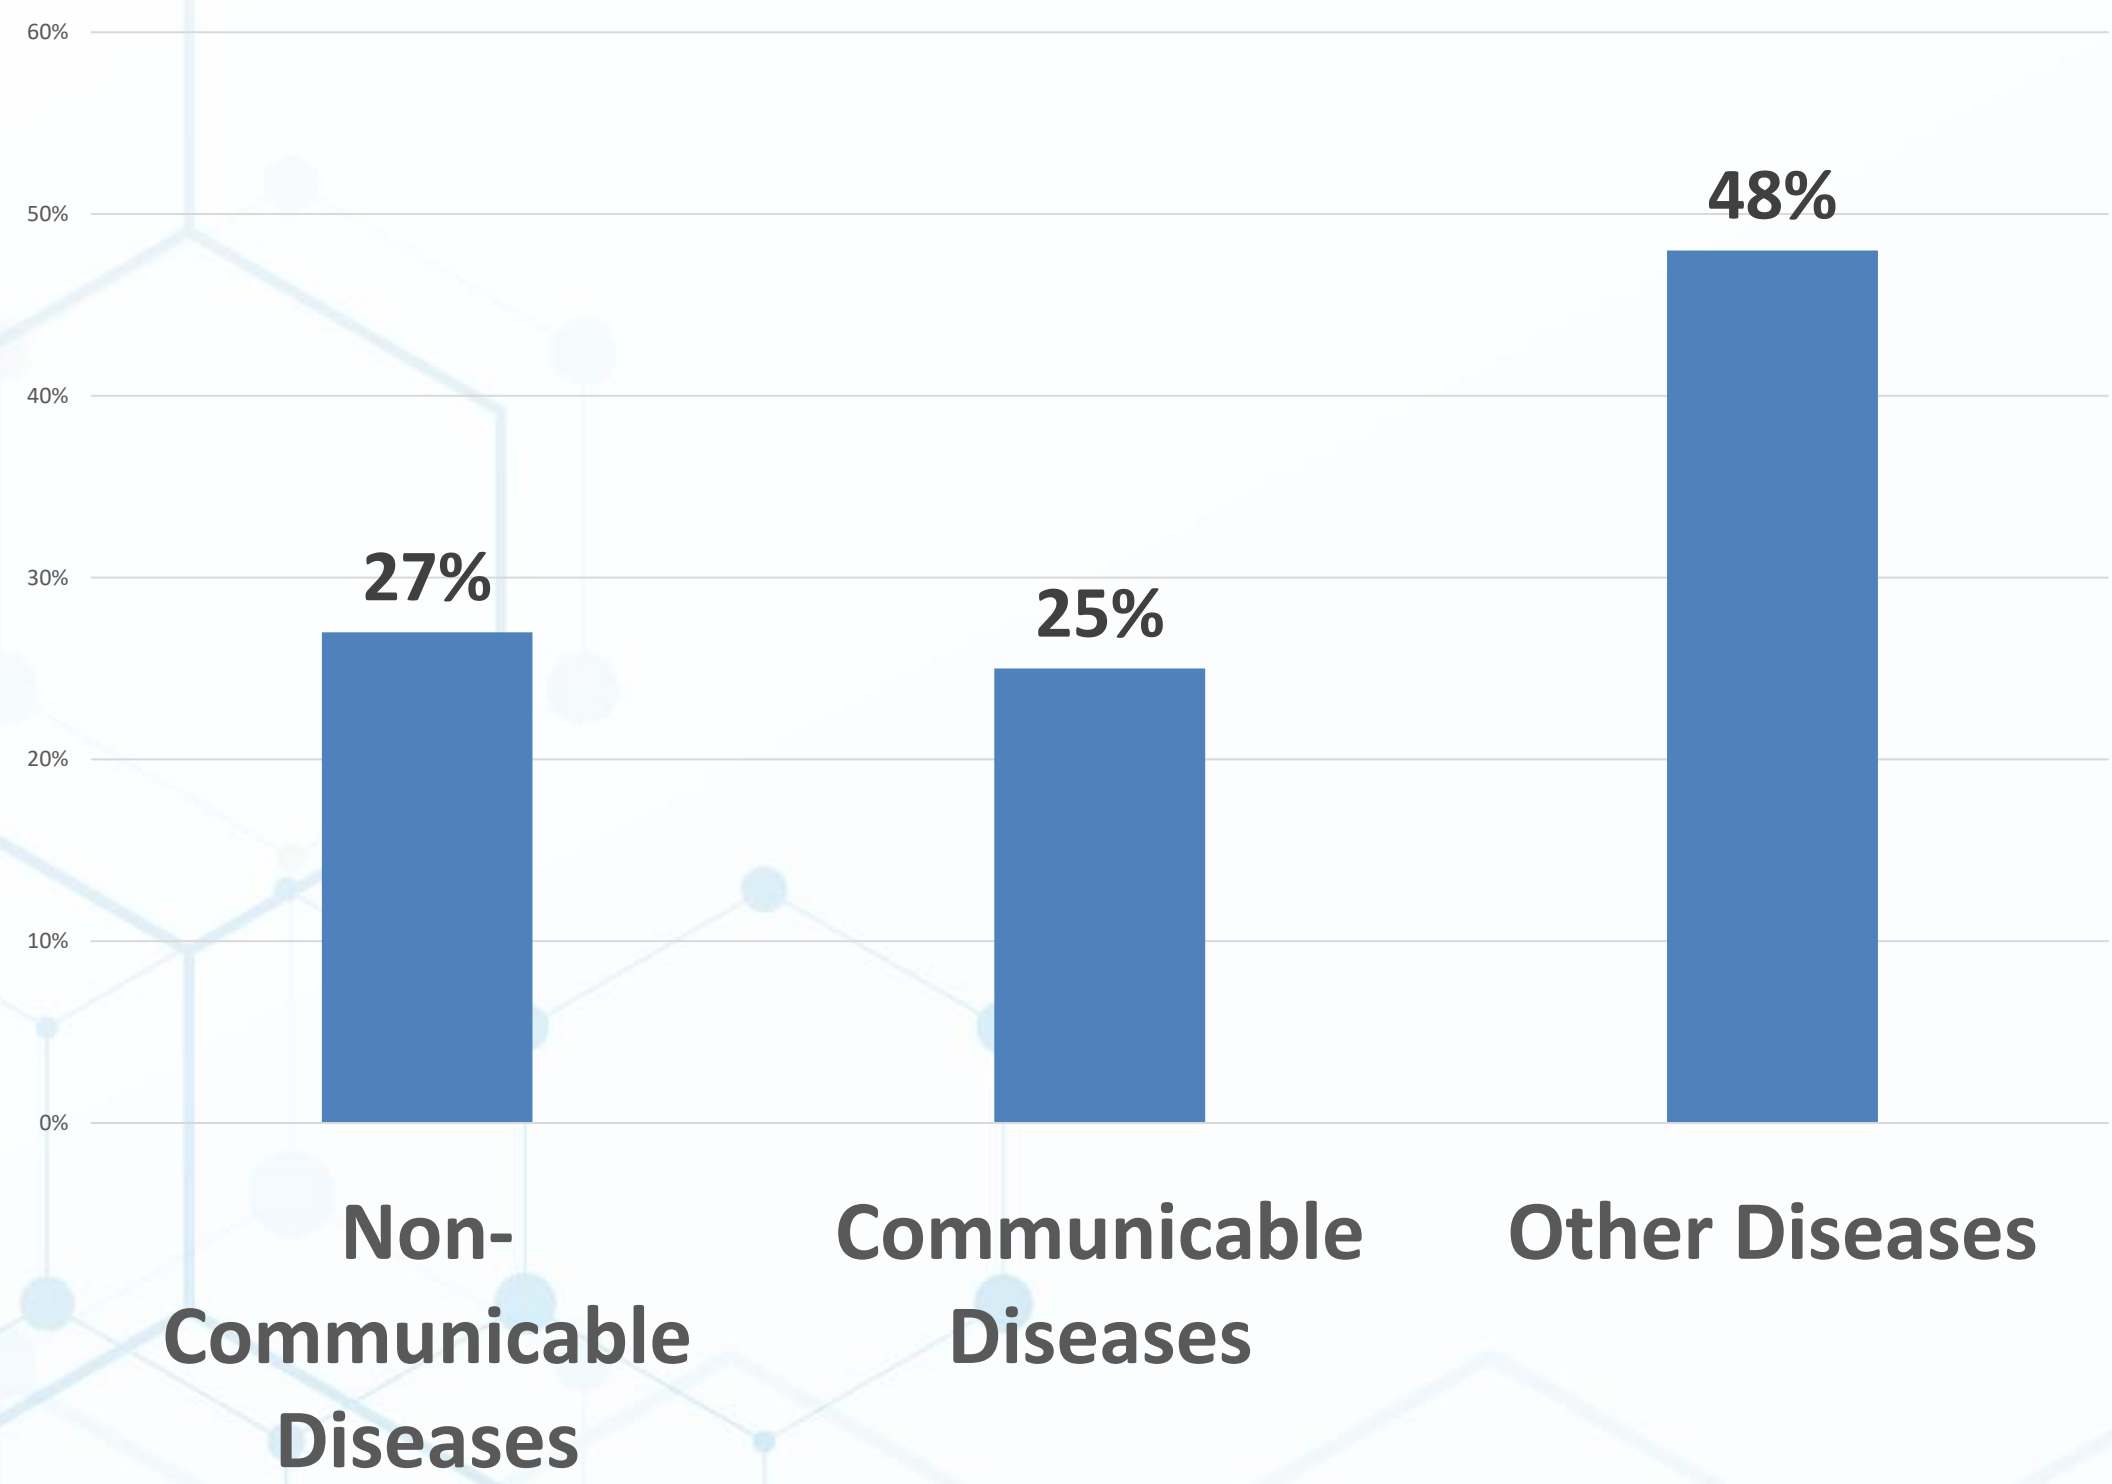

Male	Female	Total
1326	1502	2828
47%	53%	100%

Beneficiary Profile

■ Children ■ Adolescents ■ Adults

Analysis of Diseases

Awareness Camps: Women and Child Health

Baramulla

Panipat

Patiala

Narmada

Way Forward:

More awareness camps on Health and Hygiene to encourage behavior changes and lifestyle modifications.

More special camps on prevalent diseases to screen and diagnose the unidentified patients suffering from a particular disease.

Collaboration with Govt. Health System in all the four locations.

Rapport building with community health workers and Panchayati Raj Institutions.

More no. of beneficiaries to participate in the camp, regular follow up and effective Referrals.

THANK YOU
